“THE BROWN INFORMER” E-NEWSLETTER OFFERED FREE TO THERMOFORMERS

Beaverton, MI – Brown Machine LLC introduces their new e-newsletter, “The Brown Informer,” bringing you the latest in thermoforming innovation, customer success stories, new product development and services information. The first issue of “The Brown Informer” includes the Duni Corporation success story of how Brown Continuous Thermoforming Systems helped to deliver improved production rates and faster tooling changeovers for their custom clamshell packaging operation. Also included is an article how a Brown Rotary Cut Sheet System met Meyer Plastic’s need for improved machine programmability, set-up, and overall controllability. The first issue also features a story on Brown’s recognition in *Plastics Technology* for their plastics innovations. The e-newsletter provides easy access to learn more about Brown Machine through topic links such as process engineering, service, tooling, retrofit kits, and spare parts, along with a direct homepage link.

For your free copy of “The Brown Informer,” visit: www.brown-machine.com, or email: sales@brown-machine.com to receive a copy and be added to their mailing list for future issues.

As a global leader of thermoforming technologies, Brown Machine LLC engineers and builds a complete standard line of continuous and cut-sheet thermoforming equipment and related tooling/peripheral equipment. Specialty thermoforming systems suited to a wide range of markets (including automotive, recreational, packaging, appliance and various other industrial segments) can be custom built to exact customer specifications. Brown Machine fully supports the thermoforming industry (Brown machine owners and competitive models, as well) with a full complement of 24/7/365 on-call service and parts support.

For more information contact Brown Machine, 330 North Ross Street, Beaverton, MI 48612, Phone: 989-435-7741, fax: 989-435-2821, www.brown-machine.com.
