DAN BROWN APPOINTED AS NORTH AMERICAN CUT SHEET SALES MANAGER

Beaverton, MI – Brown Machine, LLC announces the appointment of Dan Brown as the North American Cut Sheet Sales Manager. Brown will be responsible for sales of all cut sheet thermoforming machines/systems. He will coordinate management of their cut sheet manufacturing representatives for the standard single station and rotary line, and direct sales for the “traditional” cut sheet product lines including larger systems, four station machines as well as high and ultimate pressure equipment.

Before re-joining Brown Machine in his new sales role, Brown most recently worked as production manager at Miller Mold, a supplier of tooling to the thermoforming industry. Prior to Miller Mold, Brown was employed at Brown Machine for 20 years as a Technical Service Representative from 1978 to 1984 and Customer Service Product Manager from 1985 - 1998. Brown’s in-depth knowledge of thermoforming machines, tooling and process coupled with his customer oriented approach will make him a great addition to the sales and marketing team. In his new position, Brown will report directly to Jim Robbins, VP Marketing.

As a global leader of thermoforming technologies, Brown Machine LLC engineers and builds a complete standard line of continuous and cut-sheet thermoforming equipment and related tooling/peripheral equipment. Specialty thermoforming systems suited to a wide range of markets (including automotive, recreational, packaging, appliance and various other industrial segments) can be custom built to exact customer specifications. Brown Machine fully supports the thermoforming industry (Brown machine owners and competitive models, as well) with a full complement of 24/7/365 on-call service and parts support.

For more information contact Brown Machine, 330 North Ross Street, Beaverton, MI 48612, Phone: 989-435-7741, fax: 989-435-2821, www.brown-machine.com.
